MY TERMINAL ADD

# GAME PLAY:

W E E K R E C R E A T I O N

W E E K R E C R E A T I O N W E E K R E C R E A T I O N

Welcome to [Hydration Recreation](#) – where the more hydrated you are, the more points you get!

What's your name, friend? Adrienne

Nice to meet you Adrienne!

Do you want to play? yes

Great! Let's get [hydrated](#)!

Did you know the average adult man is meant to get up to **4 litres per day**? It's a bit less for ladies, also, health recommendations are not very gender inclusive. You get some from food, but you think you come close to drinking 4 litres?

I thought not.

Let's say 1 glass is 500mL (more than a soda can) – that's 8 glasses a day! If 1 glass of water is 125 points, that's **1,000** points a day.  
Hint: drinks other than water will be worth less points.

How many points will you aim for? 1500

1500 points? A [moist](#) goal indeed.

Is it closer to breakfast, lunch or dinner? breakfast

Great! Let's see what you've drank today.

How many glasses of [water](#)?

How many glasses of water? 1  
Water is always a great idea!

Points so far: 125

How many glasses of juice? 1  
Juice is optimal morning drink!

Points so far: 235

How many glasses of tea or coffee? 1  
Up and at 'em!

Points so far: 335

How many glasses wth alcohol? 1  
In the morning? Maybe visit this site: Alcoholics Anonymous -> <https://aa.org.au/>

Points so far: 285

How many glasses of soda? 1  
In the morning? Give 10 points back. Sheesh.

Points so far: 275

Any other glasses of undefined fluids? 1  
Not sure what this was, you can have some points.

Total points: 355  
calculating [=====]

You're 382 points behind, you'll need to catch up to meet your goal!

# READABILITY:

The diagram illustrates the derivation of the expression  $(v/v)(v/v)$  from the expression  $v/v(v/v)$ . It shows two rows of terms. The top row consists of three terms:  $v/v$ ,  $v/v$ , and  $v/v$ . The bottom row consists of three terms:  $v/v(v/v)$ ,  $v/v(v/v)$ , and  $v/v(v/v)$ . Arrows indicate the transformation of the bottom row into the top row.

A decorative horizontal border featuring a repeating pattern of stylized, symmetrical motifs. Each motif is composed of several thin, curved lines forming a central shape, surrounded by smaller, enclosed shapes. The entire pattern is rendered in a light gray color against a white background.
